Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Berger, 3498642.

Regarding claims 8-10 and 13, Berger, 3498642, clearly discloses applicant's invention. Figures 3 and 8 show a ring comprised of two ring parts (31,32). The ring parts being connected to one another by a non-flexible joining structure defined by reference numerals 40-45. The structures on each end of the ring parts are identical in shape. The one end of the ring part includes an inner side joining structure and the other end of the ring part includes an outer side joining structure.

Regarding claims 11 and 12, Berger discloses, in the embodiment shown in figure 8, a back-engaging surface of a shape that is inclined with respect to the radial direction of the ring part (col. 3, lines 4-8).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 14 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hogan, 6422900, in view of Berger.

Regarding claim 14, Hogan discloses a ring clamp (128), in combination with a multi-piece functional part, for holding together the two halves of the multi-piece functional parts (two halves 118, figure 4).

Hogan fails to disclose a two piece ring clamp and the recited joining structure between the ring parts.

Berger discloses, as indicated above, a first partial ring and a second partial ring engaged with one another with the recited joining structure. The two-part ring structure provides for a quick and easy assembly of the clamp to the structure to be held.

It would have been obvious to a person having ordinary skill in the art to have used Berger's two piece ring structure in place of Hogan's clamping mechanism in order to increase the ease and quickness of assembling of the clamp to the multi-piece functional part.

Response to Arguments

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3677

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

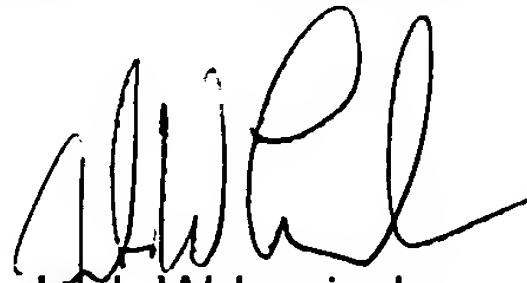

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack W. Lavinder whose telephone number is 703-308-3421. The examiner can normally be reached on Mon-Friday, 9-4:00pm.
